

The SCENAR Spirit

I think I don't have to convince anyone who works with such amazing phenomenon as SCENAR, that this device is much more than just a machine. It was created as an **informational analogue of a living system**, and it behaves as such, when brought in contact with another living system. It has intelligence of its own, and it is spiritual in nature. That is why, I think, it is important to discuss the issue of so-called '**SCENAR Spirit**'. What it is all about?

It was just that spirit that hooked me, a very conventional eye surgeon at a time. I went to one of the first training workshops in SCENAR therapy in Odessa, Ukraine, out of plain curiosity – and found myself receiving one of the most profound spiritual experiences in my life.

The best way to describe this would be '**a field of creative intelligence**'. It was a unified informational field between somewhat 50-70 participants. Ideas were flying in the air, being passionately given and received, and imagination was going wild 24 hours for all 7 (!) days. Creative minds were having fun, with no boundaries, no reservations, no negativity. It felt like everyone was vibrating on the same frequency, and resonance was reaching the very depth of your soul, going even beyond emotions and evoking the best in you.

This is 'the SCENAR Spirit' I am talking about, the vibrations that raise you. The SCENAR is capable of doing it – if you let it happen. And then you help others fly.

Being involved with the SCENAR technology since 1995, first in Russia and then in North America, I had a rare opportunity and a privilege to meet and work with brilliant scientists and great human beings who conceived SCENAR, gave birth to it and then brought it up to what it is now. And it made me realize, that SCENAR is not a closed arena. There are no judges here to decide who can enter.

SCENAR was developed to give *anyone* an opportunity to reach their full potential and become the best they can and should be. Anyone who can help this unique system grow, who can spread awareness and knowledge, is welcome. There is enough work for everyone.

Altogether, we can facilitate conscious evolution of the SCENAR and help it become what it meant to be – a **universal health companion** to everyone. In turn, the SCENAR Spirit will assist human beings in their evolution, so we can finally become what we were meant to be.
