

The **FINEST SCENAR** that **HAS IT ALL**

What is MODIFIC?

The **SCENAR-COSMODIC Hybrid EX735Ag M** (or **Modific**) is a top-of-the-line professional energy healing device, which can also be successfully used at home. If you remember the Star Trek Healing Machine, the EX735Ag comes pretty close...

EX735Ag Modific is the pinnacle of the Russian research into bio-interactive energo-informational healing technologies.
Artificial intelligence in the palm of your hand.

What Does It Do?

EX735Ag M stimulates and dramatically accelerates restoration and **REGENERATION** processes in the human body at such a fundamental level that healing **"like nothing ever happened"** unfolds in a record time and the injured area becomes even **STRONGER THAN PRE-INJURY**.

EX735Ag embodies a level of healing technology that now makes obsolete much of what conventional medicine does. This huge step in medical advancement makes the idea of a "hand-held doctor" in your home a reality.

How Does EX735Ag Do It?

This handsome device combines the two 'latest and greatest' advances in the area of adaptive electrical stimulation – **SCENAR** and **COSMODIC** technologies. It features two processors and puts your therapy on complete autopilot by switching between them at the right moment. It is like **'HAVING IT ALL'** – right here in your hands, in one piece of mind-blowingly sophisticated electronics.

COSMODIC Technology differs from the latest generation of SCENAR Technology represented by the DOVE (both invented by Dr. Alexander Karasev) in that the DOVE talks and listens to your body on one "channel," whereas COSMODIC technology talks and listens on **46** "channels." This allows the COSMODIC device to stimulate healing on a deeper level. This has led to remarkable results in areas where SCENAR technology has not been found to be as effective, COSMODIC is excellent for regeneration of tissues as made necessary by chronic health problems or injury.

At the same time, SCENAR is also important in the healing process. COSMODIC tends to **"hug"** the body while the SCENAR gives it a more forceful **"push"** to get it going in a necessary direction or "kickstarts" a process, which the COSMODIC cannot do as effectively.

Each technology is useful in different situations, and sometimes both together. This leads us to the remarkable EX735Ag, which combines both technologies.

Who This Device is for?

The EX735Ag is ideal as a **personal** device because of its highly automated functioning, which requires little knowledge to obtain excellent results. At the same time, it also has the depth of features and exceptional quality of components (including digital graphic display and solid silver electrodes) that satisfies the most discriminating **professional** practitioner.

The SCENAR-COSMODIC Hybrid EX735Ag M is **the very best of SCENAR devices** available in the world today. And it was made **FOR YOU**.

Dr. Alexander Karasev, the SCENAR inventor, on his last invention:

This device deserves a novel! It is on top of the evolution of SCENAR history — **EX735Ag Modific!** It is the one we are the most proud of. This is the first device, in which we could unite nearly all beneficial features of other devices and achieve results we didn't even hope for.

Dr. Don Snow, DAOM, MPH, L.Ac:

"I ALWAYS combine SCENAR with acupuncture and **get stellar results with 90%+ of my patients.**"

Tom Bearden, physicist:

This morning I had another **typical uplifting experience with the beautiful scenar-cosmodic**. For some reason, my body was aching tremendously when I awoke, and I was in very strong pain (knees, lower legs, back, neck, both shoulders, etc.). So my first action upon awaking was to do a complete treatment with the scenar-cosmodic.

The interesting thing was that the device absolutely sensed that my greatest problem was one of fierce pain. So it set itself on scenar mode, for heavy pain relief — and would not switch to cosmic mode because its sensors detected that I simply had to have pain relief.

And so that is what it generated and what occurred! I treated all those extremely painful parts and places with it, and when I finished an hour later **I WAS ALMOST COMPLETELY PAIN FREE!** That is rather astounding, and so I was able to then get up and face the day and get working a bit — whereas, **without the scenar treatment and its efficacy, I would not have been functional today!**

Tracy Jones, Neuromuscular Massage

"After my client treated himself with EX735Ag... I went into the therapy room and put my hands on his back - **AND MY HANDS SANK IN DIRECTLY TO THE MUSCLES!!!**

There was no need to warm up the tissues to TRY to treat the muscles. I was getting to them with ease. **This was miraculous.**"

Cheryl Carter:

"Well, **all I can say is WOW!**
It's truly amazing!

If I use the SCENAR when I first feel a migraine coming on, I can usually knock it out in about a 1/2 hour to 45 minutes. Considering I can have migraines for days at a time, **this is a God sent.** Suffice it to say – **I just can't live without my fantastic EX735Ag!**

As for the price, how much is relief of severe pain worth to you? **To me, it is WELL WORTH the price!** You will not regret buying it."
